INTERNSHIP EXPERIENCES

NetEase Game | Game System Designer Jun 2024 – Aug 2024

- Participated in system design and feature iteration for the overseas version of Revelation Mobile.
- Configured monetization events, managed localized content, and conducted feature testing.
- Collaborated with programmers, artists, QA testers, and overseas publishing teams to support version development and delivery.
- Gained hands-on experience with the full development pipeline of a large-scale live-service MMORPG, from design and implementation to release and operation.

LEVEL DESIGN PROJECTS

Decaran Become Human | Level Designer Feb 2026 – May 2026

- Independently designed and developed a complete quest level in Starfield using the Creation Kit.
- Implemented level logic, enemy encounters, and event-triggering systems.
- Responsible for spatial layout, exploration pacing, quest flow, and environmental storytelling.

The Way of Water | Level Designer Jun 2024 – Aug 2024

- Independently designed and developed a Half-Life 2 FPS level using Hammer Editor.
- Designed player guidance, combat pacing, and sightline composition while exploring Half-Life 2's physics-based gameplay and water mechanics.

GAME DEVELOPMENT EXPERIENCES

FLING | Designer, Level Designer Sep 2025 – Nov 2025

- Collaborated with a four-person team to develop a Celeste-inspired 2D platformer in Unity.
- Designed core gameplay mechanics and levels and participated in public playtesting.

Hamster Ballin' | Level Designer, Camera Designer Feb 2026 – May 2026

- Collaborated with a 42-person team to develop a UE5 kart racing game inspired by Mario Kart.
- Designed racetracks and camera systems, working closely with programmers and artists to iterate on level design and optimize the player experience.

Big Fishing Boom | Independent Boardgame Designer 2024 - Now

- Designed an original card-based board game showcased at the SHM Board Game Expo in Shanghai.
- Collaborate with publishers and commercial partners for further development.
