How to Install Game (ZIP and .exe Version)

1. Download the zip file
2. Extract the zip file to a folder
3. Open the extracted files and look for the executable
4. Double click and run the executable unity file
5. To delete, just move files to trash bin

How to Install Game (Installer Version)

1. Insert disc into CD player or download the installer
 - a. If using CD version, allow for downloading of files
2. Double click the fling_setup.exe and run the installer
3. Select a install location (default recommend)
4. Create a desktop shortcut within the installer
5. Double click the desktop icon or run the game in the install location
6. You may also choose to immediately launch from install which will pop up at the end of the installer
7. To uninstall, right click and open file location, then run unis000.exe

How to Play Game

1. Once the executable is run, progress through the level following the natural path
2. The first portion of the game is designed to be done without having access to the grapple
3. The player is intended to use the grapple when they reach the room behind the first door with the first grapple surface
4. Read major game features for specific instructions
